**TRADING UPDATE: FINANCIAL PERFORMANCE FOR THE SIX-MONTH PERIOD ENDED 31 OCTOBER 2024**

Shareholders of Senwes are hereby advised that a reasonable degree of certainty exists that the normalised headline earnings for the six months ended 31 October 2024 ("interim period") will be materially lower. The expectation is that it will be between 50% (fifty percent) and 60% (sixty percent) lower than the previous comparable period.

Compared to the previous interim period, the lower harvest significantly impacted the Market Access segment's results, while reduced profitability among producers negatively affected the Input Supply segment.

A further announcement shall be made should the expected normalised headline earnings change. Senwes will publish its six months' financial results for 31 October 2024 on or about 6 December 2024.
