(hereinafter referred to as "Senwes")

TRADING UPDATE: FINANCIAL PERFORMANCE FOR THE FINANCIAL YEAR ENDED 30 APRIL 2025

Shareholders of Senwes are hereby advised that a reasonable degree of certainty exists that the earnings for the financial year ended 30 April 2025 will be materially lower. The Group expects earnings for the financial year to be between 20% (twenty percent) and 30% (thirty percent) lower than the previous year.

The lower national harvest affected the Market Access Segment negatively with higher grain prices substantially offsetting the impact of lower grain intake volumes. Lower profitability amongst the producers created pressure on sales within the Input Supply segment. The underperformance of Senwes' John Deere agency in Germany also affected the earnings negatively.

A further announcement shall be made should the expected earnings change. Senwes will publish its financial results for 30 April 2025 on or about 4 July 2025.

By order of the board

EM Joynt (Mrs.)

GROUP COMPANY SECRETARY
