

FORAGE HARVESTERS

JF Maxxium

Models JF 40, JF 50 and JF 60 are available, with several versions for tractors and stationary chopping. JF Precision Forage Choppers chop grass, sunflower, sugar cane, maize and sorghum with excellent particle uniformity, in addition to being machines with simple operation and maintenance.

CUT SIZE CHANGE BY LEVER:

The only model in the market that changes the cutting size with the machine running. Easy and quick handling.
