

Enorossi Bat Rakes

Enorossi 8-, 10- and 12- Wheel Batrake with standard central raking wheel.

Enorossi now offers the latest innovation in high capacity Caddy rakes with the BATRAKE. The heavy 7 mm spring tines provide for excellent wear and strong resistance to breakage.

Go from a V-rake configuration to single side without leaving the tractor seat.

The BATRAKE's unique lifting system gives you the ability to only partially raise the V-rake when reaching the end of the field, rather than into the full transport position. A single hydraulic hose allows it to be used on older tractors with limited hydraulic remotes. Windrows width from 3' to 7'.

This unique V-rake combines attention to detail and quality of the work performed. The Batrake's rake wheels can be considered among the best on the market with 32 inch of ground clearance!

Central raking wheel with hydraulic lift, hydraulic raking angle control.

Model	Working Width	Weight	No Raking Wheels	Power Required
Batrake 8	500 – 560 cm	680 kg	8	30 hp
Batrake 10	560 – 660 cm	780 kg	10	30 hp
Batrake 12	600 – 740 cm	890 kg	12	30 hp
