

Enorossi Disc Mower with Conditioner

The mounted disc mowers are professional machines, agile in use and made to ensure a high productivity and long life. They are all equipped with the ENOCUT cutting bar which allows a quick and clean cut. DMC ROLL series mounts the roller conditioner to facilitate the drying of the product.

This rear-mounted disc mower is equipped with hydraulic lift, safety release to protect the bar from any obstacles, over running cardan shaft with slip clutch, protection cover and swath deflectors. High quality steel ENOCUT cutting bar, a system totally manufactured in-house by Enorossi. Equipped with ROLL roller conditioner.

Model	No Of Discs	Cutting Width	Working Speed	Blades For Disc	RPM	HP	Weight
DM 7	7	280 cm / 9.2 ft	10–14 km/h / 6–9 mph	2	540 rpm	70–80 hp	640 kg / 1411 lbs
DM 8	8	320 cm / 10.5 ft	10–14 km/h / 6–9 mph	2	540 rpm	80–90 hp	690 kg / 1522 lbs
DM 8 3C	8	320 cm / 10.5 ft	10–14 km/h / 6–9 mph	3	540 rpm	80–90 hp	690 kg / 1522 lbs
