

FORAGE HARVESTERS

JF 2300 AT Forage Harvester

The JF 2300 AT is the perfect solution for professional farmers and silage contractors for having a quicker harvest and an inline driving experience with the tractor/harvester set.

FEATURES

- Front and rear coupling to the tractor for an inline driving experience, easier maneuvering and optimized harvesting in plots without space on the edges;
- Exclusive Twin Rotor technology and 4 front drums for real higher productivity;
- 2,30m wide row-independent header with front drums, feeding box and aligners with exclusive design for a constant harvest flow and lower stress on transmission and tractor. In maize and sorghum it harvests 4 rows at a time with row spacing of up to 70 cm; and 3 rows at a time with row spacing of up to 90 cm;
- Heavy-duty transmission and reliable design from the world's leading brand of forage harvesters;
- Electric/hydraulic control by joystick for easier operation.

SPECIFICATIONS:

Capacity	up to 54 ton/h2
Cut sizes	24 (from 2 up to 36mm)
Number of blades	12 (per rotor)
Number of gathering drums	4
Number of rotor	2
Power source	tractor PTO
Required power at PTO	from 115 up to 150 hp
Required revolution at PTO	1000 RPM
Transmission system	gearbox / cardan
Weight	2118kg

'Productivity might vary and depends on the following factors: cut size; productivity of forage per hectare; tractor power; logistic capacity (wagons) for forage transportation. Before acquiring the equipment, please talk to your dealer about the size of your tractor tire.
