

Staalmeester 2121 Hammer Mill

The Staalmeester 2121 Hammer Mill produces affordable stock feeds. This is a dust free hammer mill with an adjustable closing plate and comfortable feeding tray.

The hammer mill uses gravity for effective milling.

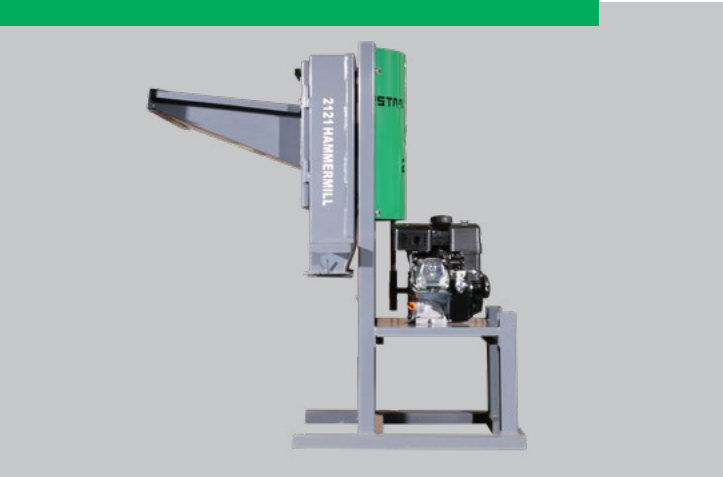

The 2121 has an effective 360° milling area, which increases the quality of the feed and has a much larger capacity.

FEATURES:

- Screen sizes that vary from 0.8 mm up to 70 mm.
- Rotor fitted with 4 hardened blades and v-shaped cutting tip.
- Low power consumption.
- 1 year warranty.
- Ideal for the production of “super maize meal”
- Can be used to mill grain, lucerne and grass types.

POWER OPTIONS AVAILABLE:

- Electric 5.5 kW
- Electric 7.5 kW.
- Petrol 6 HP.
- Diesel 7.5 kW.
- Without motor.

Rotor Ø	310 mm
Rotor Shaft	30 mm
Housing Width	180 mm
Housing Ø	330 mm
Milling Sieve	360°
Motor Speed	2900 rpm
Rotor Speed	4400 rpm
kW Required	5–7 kW
Effective Screen area	1550 cm²
Weight with motor	223 kg
Weight without motor	154 kg
