

Staalmeester | B70 Round Baler

Staalmeester's B70 is the first original baler imported to South Africa. With the trusted and household B70 name, farmers have confirmed that the B70 outperforms all in its class. A robust baler with high quality bearings and gears, 20% thicker tines and a pick up stripper plate.

There is only one B70 and the only one sold by Staalmeester and its affiliates. Don't settle for sub-quality products, buy the right equipment with superb backup service only from Staalmeester. Don't trust any "red" baler, trust the B70 Baler.

FEATURES:

Highly manoeuvrable.
 Low maintenance.
 Continuous roller design.
 3-point mounting.
 Low power requirement.
 3 bale density settings.
 Smaller bale size - easier to handle.
 Self-contained hydraulic system (can be used by all tractors).
 Reliable and low maintenance binding system.
 Automatic trigger for twine binding.

Three-point mounting offers the following benefits:

- No unnecessary wear and tear during road transport;
- easy turning in tight conditions;
- no possibility for damage to be caused when reversing;
- minimal force on P.T.O shaft.
