

HAMMER MILLS

Staalmeester Pick-up Hammer Mill

The pick-up unit is bolted to the standard 6776 Hammer Mill and is specially designed for South African conditions.

The fodder is milled and treated in one process - double handling is therefore eliminated entirely.

Unscrew the gathering unit and you have an ordinary mill.

Material such as lucerne, grass, sugarcane, peanut hay, wheat straw and maize stalks can be picked up from the swath effortlessly and milled to your specifications.

OPTIONAL:

Double cyclone or chute.
Capacity with 25 mm screen.
Lucerne: 11 680 kg/h.
Shelled maize: 21 800 kg/h.

Pick-up width	1 300 mm
Width	3 200 mm
Length	1 840 mm
Weight	1 010 kg
P.T.O power **	45-78 kW
Cam disc bearings	4
Hydraulic motor with control valve	

****The recommended tractor size depends on the working conditions, growth and environmental factors.**
